# PRESS RELEASE

## Dometic launches premier FreshJet FJX7 series RV air conditioners in Europe

Düsseldorf, Germany – August 25, 2023

Dometic introduces top-level series of new generation RV air conditioners, Dometic FreshJet portfolio. The Dometic FreshJet FJX7 series is quiet in operation and its variable speed compressor technology realizes best performance with lower energy consumption and achieves 70% reduction of Global Warming Potential (GWP) with R32 (difluoromethane) refrigerant.

Dometic's new generation RV rooftop air conditioner FreshJet range is acknowledged for its high power with low energy consumption, quiet operation and small footprint.

Its latest premier models, FreshJet FJX7 series with 3 sizes features variable speed inverter technology, which adjust the speed of the airflow and cooling with temperature and save energy substantially.

The Dometic FreshJet FJX7 characterized with\*

- ~ 10% more quiet in operation
- ~ 40% less energy to maintain the set temperature
- ~ 50% higher cooling capacity
- ~ 40% faster cool down time
- Connectivity via CI-BUS & Dometic Climate App

\* Compared with previous models

Additionally, the new Dometic air-conditioners are redesigned to use more sustainable difluoromethane R32 refrigerant to meet future regulation by the EU already today.

With drastically reduced use of refrigerant and its energy efficiency, the FJX7 series achieves 70% reduction of Global Warming Potential (GWP) compared to elder models.

The new series come with three sizes, 2200 W, 3000 W and 3500 W. All packaged in sleek modern design with small footprint to fit on any roof of RVs.
