More Power Off-Grid: Dometic Unveils New TEMPRA Lithium Batteries for Expanded Energy Freedom

Düsseldorf, Germany – August 30, 2025

New TEMPRA lithium batteries from Dometic deliver more power, smarter integration, and flexible installation for RVs—from compact vans to full-size motorhomes.

Enjoy coffee at the touch of a button. Cook and cool your provisions with electricity. Quickly air condition the cabin before you go to sleep. Amenities like these are no longer reserved to campsite stays on a mains hook-up. Dometic introduces two new lithium-ion batteries at Caravan Salon 2025, expanding its TEMPRA series to meet the

growing demand for reliable, off-grid power in recreational vehicles. Designed for both retrofit and new installations, these batteries offer high performance, smart connectivity, and compact form factors—ideal for RV owners who want to enjoy modern comforts wherever they travel.

- **TEMPRA TLB 540:** A robust 540 Ah LiFePO4 battery that fits under the seat of a Fiat Ducato. It powers high-demand appliances like espresso machines, fridges, and air conditioners—perfect for full off-grid independence.
- **TEMPRA TLB100S:** A lightweight 100 Ah battery (only 11 kg) designed for mid-sized vans such as the Ford Transit Connect. It delivers 20% more capacity than typical batteries in its class and fits easily into tight spaces.

"Whether you're chasing sunsets on the coast or waking up to mountain views, Dometic TEMPRA batteries ensure your journey is powered with comfort and freedom—anywhere, anytime," said Anton Lundqvist, Chief Technology Officer at Dometic. "Our new models are designed to give RV users the confidence to

explore further, stay longer, and enjoy modern conveniences off-grid without compromise."

Key Features:

- Bluetooth® connectivity and Dometic Power App for easy monitoring and control
- CI-BUS and N-BUS compatibility for seamless integration
- Optional heated versions for reliable charging in temperatures as low as -30°C

Whether upgrading an existing RV or outfitting a new build, Dometic's latest TEMPRA batteries offer a smart, space-saving solution for powering life on the road. Visit Dometic at Caravan Salon 2025 to explore the full TEMPRA range and discover how easy it is to stay comfortable off-grid.
