## Dometic launches two premium outdoor refrigeration series at KBIS 2023

Las Vegas, NV – January 31, 2023

Dometic expands its portfolio of premium outdoor kitchens with the introduction of a new suite of outdoor refrigeration products, created by combining Dometic's cooling technology with Twin Eagles' outdoor product engineering skills. Debuting at the 2023 Kitchen & Bath Industry Show, the line offers flexible, high-performance solutions built to last.

A new introduction for the brand, Dometic is excited to debut its array of **outdoor refrigeration** products at KBIS 2023. Building on the Sweden-based brand's 100-year legacy of premium refrigeration products, this new range boasts industry-leading cooling technology and serves as the perfect complement to any outdoor kitchen with superb cold storage for drinks, condiments, ready-to-grill steaks, and more.

"Drawing on our storied history in refrigeration and crafted by Twin Eagles outdoor kitchen engineering skills, this new suite of refrigeration products will continue to shape the Dometic Home outdoor experience - whether it's preparing a delicious meal or toasting to a special moment," says Juan Vargues, President and CEO of Dometic. "We believe that the equipment you use at home should be designed with the highest functionality, convenience, and reliability in mind."

That focus shines through in Dometic's newest introductions in outdoor refrigeration. Decades of experience in RV and marine refrigeration result in a unique ability to engineer refrigeration that stands up to the elements with exceptional durability and performance.

The new **E-Series** and **D-Series** models offer precise cooling in a sleek, professional-grade stainless steel package that fit any outdoor kitchen style with **freestanding** and **built-in drawer configurations** available. Both series offer precise temperature control, consistent airflow, a zero-clearance hinge that allows for

seamless integration with cabinetry, and reversible door openings, as well as an ergonomic horizontal handle for improved accessibility and blue LED lighting that beautifully illuminates the interior.

## Dometic E Series Outdoor Refrigeration

The premium E-Series boasts a streamlined look with its full stainless-steel interior and exterior, as well as chromed shelves and a built-in control panel. Options include two outdoor refrigerators: the 24" EA24F and the 15" EA15F, a 24" outdoor refrigerator drawer (EA24D), and a 24" outdoor beverage center (EA24B) that combines refrigerator and wine cooler functions with a glass door and adjustable interior shelves.

## Dometic D Series Outdoor Refrigeration

The D-Series models are offered in a stainless-steel exterior with a sleek coated metal and durable black plastic interior. Consumers can choose from two configurations: the 24" DE24F outdoor refrigerator or the 15" DE15F outdoor refrigerator.

Designed to make life in the backyard simpler, more enjoyable, and more luxurious, Dometic's new suite of outdoor refrigeration options offer consumers innovative cooling companions for outdoor kitchens and living spaces.

The Dometic Outdoor Refrigeration Series will be available via North American retailers Summer 2023.
